CLEANCASEBR

DETAILS

1 ESSENTIAL FOR LARGE DISPLAY MOBILE PHONES

New generation mobile phones have wider, more luminous displays. Thus cleaning and protecting the screen become increasingly important. CLEANING CASES are the first stretch fabric cases that polish and clean your mobile phone as well as protecting it.

2 POLISHING MICROFIBRE

The polishing microfibre lining delicately rubs the display, cleaning and shining the mobile phone every time you take it out of the case. Thanks to its stretch fabric, CLEANING CASES are completely universal and are suitable for most mobile phones on sale.
